Portfolio | LinkedIn | GitHub

Professional Summary

Mobile Application Developer with professional experience contributing to Android and iOS applications, business management software, and web-based dashboards. Experienced in React Native, Expo, Supabase, REST API integration, database-backed application workflows, and freelance web development. Contributed to Counter 365, a point-of-sale application, and StyleFleet, a salon management application. Seeking Mobile Application Developer, React Native Developer, or Junior Full-Stack Developer opportunities to build reliable, user-focused software.

Technical Skills

Programming and Web: JavaScript, React.js, HTML5, CSS3

Mobile Development: React Native, Expo, Android, iOS

Backend and APIs: Node.js, Express.js, REST APIs, API Integration

Databases and Services: Supabase, PostgreSQL, MongoDB, MySQL, Firebase

Tools and Platforms: Git, GitHub, Expo Application Services (EAS), Google Play Console, App Store Connect

Professional Experience

Junior Mobile Application Developer **Aug 2026 – Present**
Tecstellar Solutions *Remote*

- Develop and maintain cross-platform application features for Android and iOS using React Native and Expo.
- Contribute to Counter 365, a point-of-sale and billing application, including mobile interfaces, application workflows, and backend integration.
- Contribute to StyleFleet, a salon management application, across mobile applications and web-based dashboard functionality.
- Work with Supabase-backed application services and database-driven features to support business workflows and application functionality.
- Participate in feature implementation, debugging, application testing, and release-related activities.

Freelance Web Developer **Jul 2025 – Present**
Independent Projects *Remote*

- Design and develop websites and web applications for clients, focusing on responsive layouts, usability, and business requirements.
- Build frontend interfaces and work on backend, database, and API integrations where required by project scope.
- Coordinate with clients to understand requirements, implement revisions, and deliver working web projects.
- Manage project development and deployment workflows using relevant development and hosting platforms.
